

Spanish Green Biotech Pipeline*

INGREDIENTS, ADDITIVES AND PROBIOTICS

	Company	Name or description	Indication / Property	Applications	R&D	Validation	Register	Patent	Available in the market
	AB-Biotics	AB-Life	Probiotic formula which achieves a 14%-18% reduction in cholesterol levels (total, LDL and ox-LDL) according to clinical studies	Food supplement, dairy products, beverages	✓	✓	✓	✓	✓
	AB-Biotics	AB-Fortis	Patented micro-encapsulation system to provide all the recommended daily amount of iron in a single dose without side effects	Dairy industry and nutritional supplements containing iron and vitamins	✓	✓	✓	✓	✓
	AB-Biotics	AB-Dentalac	Probiotic formula for a global oral health, with bactericidal activity against the most common oral pathogens	Chewing gums, oral care products, syringes	✓	✓	✓	✓	✓
	AB-Biotics	I3.1	The first probiotic formula which produces a global improvement of quality of life in IBS patients	Pharma: capsules or sachets	✓	✓	✓	✓	
	AB-Biotics	AB-Colic	Probiotic formula for infantile colic, designed to be orally administered in an oil-based solution	Dairy products, infant formula. Capsules, drops, sachets	✓	✓	✓	✓	
	AB-Biotics	AB-Intimus	Probiotic which adheres to the vaginal epithelium and displaces Candida infections, surviving the increased concentrations of antimicrobials	Vaginal care products	✓	✓	✓	✓	
	AB-Biotics	AB-VitaminK	Probiotic formula based on lactic acid bacteria which produces menaquinone (vitamin k2) for improving bone and vascular health	Food supplement	✓				
	ALGAENERGY	AlgaeFood®	High level of polyunsaturated fatty acid, w3 type (EPA, DHA and ARA), proteins (essential aminoacids), vitamins, carotenoids, etc	Oils and fats / Others / Natural Products	✓	✓	✓	✓	✓
	ALGAENERGY	AlgaeFood®	Strains and extracts. Functional foods	Functional ingredients	✓	✓	✓	✓	✓
	Bioibérica	Immunactive	Food supplement with nucleotides to help stimulate the immune system	Sport Nutrition	✓	✓	✓	✓	✓
	Bioibérica	Tendoactive	Food supplement recommended for tendon pain	Sport Nutrition	✓	✓	✓	✓	✓
	Bioibérica	Artroactive	Food supplement recommended for athletes who wear down their articular cartilage	Sport Nutrition	✓	✓	✓	✓	✓
	Bioibérica	Hialsorb	Cream for the nutrition of athletes' joints	Sport Nutrition	✓	✓	✓	✓	✓
	Bioibérica	Chondroitin Sulfate	Osteoarthritis treatment	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓		✓
	Bioibérica	Glucosamine	Osteoarthritis treatment	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓		✓
	Bioibérica	Hyaluronic Acid	Osteoarthritis treatment	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓		✓
	Bioibérica	Hyal-Joint	Helps keep hyaluronic acid concentrations within a healthy range, thereby promoting comfortable joint mobility and reducing stiffness	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓	✓	✓
	Bioibérica	Collagen	Food supplement ingredient for joints	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓		✓
	Bioibérica	Mucopolysaccharides	Food supplement ingredient for joints	APIs (Active Pharmaceutical Ingredients)	✓	✓	✓		✓
	BIOPOLIS	Microorganisms and compounds as biopreservatives	Improving a product's useful life and organoleptic and microbiological quality using microorganisms	Fish processing and preservation	✓	✓			✓
	BIOPOLIS	Prebiotics	Gastrointestinal health improvement; confirmation of benefit in final product	Dairy industry / Bakeries / Mineral water and soft drink bottlers	✓	✓			✓
	BIOPOLIS	Probiotics with specific activity: Intestinal inflammation <i>Bifidobacterium longum</i> ES1	Anti-inflammatory effects	Nutritional supplement / Dairy industry / Bakeries / Mineral water and soft drink bottlers	✓	✓	✓	✓	✓
	BIOPOLIS	Probiotics with specific activity: Immune system <i>Bifidobacterium breve</i> CNCM I-4035, <i>Lactobacillus paracasei</i> CNCM I-4034, <i>Lactobacillus rhamnosus</i> CNCM I-4036	Active immune system	Nutritional supplement / Dairy industry / Bakeries / Mineral water and soft drink bottlers	✓	✓			✓
	BIOPOLIS	Bioactive peptides in cocoa	Preventing Alzheimer and hypertension; confirmation of benefit in final product	Sugar, cocoa and chocolate	✓	✓	✓	✓	Licence available to produce bio-actives products
	BIOSEARCH	EUPOLY-3®	LC-Omega 3 oil (powder, emulsion and oil) for functional foods and nutraceuticals, with excellent organoleptic properties	Olive / seed / Dairy industry / Beverage industry / Bakeries / Meat / Fish industry / dietary supplements / Infant nutrition	✓		✓		✓
	BIOSEARCH	HEREDITUM®	Probiotics isolated from human breast milk for the prevention of infant infection	Infant nutrition / Dietary supplements	✓	✓	✓	✓	✓
	BIOSEARCH	HEREDITUM®	Probiotics isolated from human breast milk for the treatment of lactational mastitis	Women Health / Dietary supplements	✓	✓	✓	✓	✓
	BIOSEARCH	CARONOSITOL®	D-chiro-inositol (DCI) from Carob for Polycystic Ovary Syndrome (PCOS)	Women Health / Dietary supplements	✓	✓	✓	✓	✓
	BIOSEARCH	EXXENTIA®	Hops Dry Extract (<i>Humulus lupulus</i> L.) standardised in 8-Prenylnaringenin, 8-PN to alleviate menopausal discomforts	Women Health / Dietary supplements	✓				✓
	BIOSEARCH	HYDROLIV PLUS™	Hydroxytyrosol (≥15%) extract from olive fruits with a strong antioxidant character	Olive / seed oils industry / Dairy industry / Beverage industry / Bakeries / Meat / Fish industry / dietary supplements	✓	✓			✓
	ESTEVE	Triptomax	Food supplement recommended during periods of stress	Nutrition	✓	✓	✓	✓	✓
	ESTEVE	Gama Diabalance	Products to facilitate life and care of people with diabetes in their daily lives	Diabetic nutrition	✓	✓	✓	✓	✓
	FARMARABA	Microalgae	Polyunsaturated fatty acid, Omega 3 oil; proteins, vitamins, carotenoids, etc	Functional foods and Nutraceuticals	✓				
	FECYT	Probiotic	New probiotics with antibacterial properties to prevent caries	Oral care products / Food supplement	✓	✓		✓	
	Fundacion MEDINA	Natural preservatives	Extracts with antimicrobial activity	Food Manufacture	✓				
	LEITAT	Enzymatic interesterification of fats and oils, and fat crystallisation	Improve the nutritional profile of food products	Oils and fats / Dairy industry / Sugar, cocoa and chocolate	✓				
	LEITAT	Natural derived ingredients	Extracts from Mediterranean Flora with certain functionalities which could be used in food (antimicrobial, antioxidant, etc)	Food additives, feed additives, supplements	✓				
	NATAC	Herbal extracts	Innovative herbal ingredients		✓	✓	✓	✓	✓
	NATAC	Functional lipids	Olive oil concentrates in polyphenols as hydroxytyrosol, triterpenoids, sterols, etc	Nutraceuticals / Olive / Seed oils industry / Dairy industry / Beverage industry / Bakeries / Meat / Fish industry / dietary supplements	✓	✓	✓	✓	✓
	NATAC	Olive extracts	Oleanolic acid (98% purity), maslinic acid, hydroxytyrosol (20%). ALLOLIVE full plant profile olive extract	Nutraceuticals / Olive / Seed oils industry / Dairy industry / Beverage industry / Bakeries / Meat / Fish industry / dietary supplements	✓	✓	✓	✓	✓
	NATAC	Omega-3	Highly concentrated omega-3 products with low content of phytanic acid		✓	✓	✓	✓	✓
	Lipopharma Therapeutics	Cardionea (Cardionnaise)	No cholesterol, and it lowers both blood pressure and the levels of triglycerides	Sauce manufacturers	✓				
	SeproxBiotics	SeproxBiotech	Hydroxytyrosol, hydroxytyrosol acetate and DOPAC	Meat industry	✓				
	SeproxBiotics	SeproxBiotech	Hydroxytyrosol, hydroxytyrosol acetate and DOPAC	Meat industry / Fish processing and preservation / Fruit and vegetable processing and preservation / Dairy industry	✓				
	SeproxBiotics	SeproxBiotech	Hydroxytyrosol, hydroxytyrosol acetate and DOPAC	Oils and fats / Dairy industry / Mineral water and soft drink bottlers	✓	Health claim approved por EFSA in oils	Register like GRAS by FDA		Available in USA, not in Europe

BIOPROCESSES AND OTHER TECHNOLOGIES

	Company	Name or description	Indication / Property	Applications	R&D	Validation	Register	Patent	Available in the market
	Biomedra	R&D and innovation (RDI) services: RDI consulting and project execution	Technological solutions for the food industry	Food producers of all types	✓	✓			✓
	BIOPOLIS	Fermentation starters	Ensure that fermentation takes place at the proper time and with the selected microorganisms, ensuring uniformity between product batches, control over fermentation time and final product quality	Meat industry / Dairy industry / Bakeries / Alcoholic beverages	✓	✓			✓
	BIOPOLIS	Functional evaluation and validation (in vitro and in vivo) of functional ingredients and functional foods	Functionality confirmation in the final product (oxidative stress, obesity, neurodegeneration, diabetes, anti-microbial infection, etc)	Dairy industry / Sugar, cocoa and chocolate	✓	✓			✓
	BIOPOLIS	Characterisation of the enzyme profile in commercial products	Improvement and optimisation of enzymatic processes by selecting the commercial product that offers the best yield on the basis of customer needs	Dairy industry / Bakeries / Sugar, cocoa and chocolate	✓	✓			✓
	BIOPOLIS	Assessment of waste and byproducts	Pursuit of "zero waste" and value-added use of byproducts in the same or other industries, reducing costs and tapping new revenue sources	Food producers of all types	✓	✓			✓
	BIOPOLIS	Process enhancement and optimisation	Solution to production problems, with possibility of scaling solutions up to industrial scale to test efficacy	Food producers of all types	✓	✓			✓
	FARMARABA	Microalgae	Full utilisation of biomass	Functional foods (biscuits, cookies, juice, ice cream...)	✓				
	FARMARABA	Bioconversion by microorganisms	Isoflavones, aglycones	Functional foods and Nutraceuticals	✓				
	Fundacion MEDINA	MEDiscovery	Bioactive Molecule Discovery Platform	Food producers of all types					
	Fundacion MEDINA	MEDScreen	High Throughput Screening of Biotechnological Products	Food producers of all types					
	Fundacion MEDINA	MEDmicro	Microbial Fermentation & Scale Up Platform	Food producers of all types					
	Fundacion MEDINA	MEDchemistry	LCMS & NMR Analytical Platform	Food producers of all types					
	GLEN BIOTECH	Dry formulation based on Bb203	Biological product base on Beauveria bassiana against Red Palm Weevil	Integrated Pest Management of Red Palm Weevil			✓	✓	
	GLEN BIOTECH	Solid fermentation processes	Dry formulation based on biological control agents as fungi to control pest without water	Production of biological control agents as fungi					✓
	GP-PHARM		Micro nanospheres for release injectable products of peptide		✓	✓	✓	✓	✓
	LEITAT	Enzymatic interesterification of fats and oils, and fat crystallisation	Improve the nutritional profile of food products	Oils and fats / Dairy industry / Sugar, cocoa and chocolate	✓				
	LEITAT	Reuse of byproducts and coproducts: production of functional products	Production of products for the cosmetic / food / pharmaceutical industry and for animal feed	Oils and fats / Dairy industry / Sugar, cocoa and chocolate / Fish processing and preservation / Fruit and vegetable processing and preservation	✓				
	LEITAT	Plasma for sanitising	Sanitising surfaces for food	Oils and fats / Dairy industry / Sugar, cocoa and chocolate / Fish processing and preservation / Fruit and vegetable processing and preservation	✓				✓
	LEITAT	Microencapsulation	Protection of active ingredients / Controlled release / Avoidance of organoleptic problems	Dairy industry / Sugar, cocoa and chocolate / Fruit and vegetable processing and preservation / Bakeries	✓				
	LEITAT	Biofilms	Study of biofilm formation and validation of technologies for biofilm removal	Oils and fats / Dairy industry / Sugar, cocoa and chocolate / Fish processing and preservation / Fruit and vegetable processing and preservation	✓				
	Plant Response Biotech	Elicitor to stimulate plants' innate immunity	Crop treatment to prevent diseases and increase yields	Fruit and vegetable processing and preservation	✓	✓		✓	
	Plant Response Biotech	Validation of biostimulants	Improving the quality and shelf life of fruit and vegetables	Fruit and vegetable processing and preservation	✓	✓		✓	
	Plant Response Biotech	Metabolites for plant abiotic stress protection	Crop treatment to prevent abiotic stress and increase yields	Food producers of all types	✓	✓		✓	
	Vivacell Biotechnology Spain	Scientific certification of biological activity of foods, extracts and functional ingredients	Studies in vitro and in vivo of the impact on obesity and metabolic syndrome, ageing, cardiovascular system, immune system, neuroprotection and nutriscosmetics	Applicable to all industries					✓

*Based on data provided by ASEBIO associated companies. APRIL 2014.

Spanish Green Biotech Pipeline*

FOOD SAFETY AND SUBSTANCE DETECTION

	Company	Name or description	Indication / Property	Applications	R&D	Validation	Register	Patent	Available in the market
	Biomedal	GlutenTox Sticks	Immunochromatographic strips for detecting gluten in foods	Food producers of all types	✓	✓			✓
	Biomedal	GlutenTox ELISA Sandwich	ELISA assay for quantification of gluten in food samples	Food producers of all types	✓	✓			✓
	Biomedal	GlutenTox ELISA Competitive	ELISA assay for quantification of gluten in food samples suitable for hydrolysed samples	Food producers of all types	✓	✓			✓
	Biomedal	GlutenTox Pro	Test for gluten detection	Food producers of all types and handlers	✓	✓			✓
	Biomedal	GlutenTox Home	Rapid test for gluten detection	Celiac	✓	✓			✓
	Biomedal	GlutenTox READER	Immunochromatographic strip reader	Any food industry that performs gluten tests using GlutenTox Sticks	✓	✓			✓
	Biomedal	Gluten analysis services	Gluten analysis services. ISO 17025 certification	Food producers of all types	✓	✓			✓
	Biomedal	Food analysis services	Broad portfolio of food analyses (allergens, physical-chemical, microbiological, etc.)	Food producers of all types	✓	✓			✓
	BIOPOLIS	Isolation and identification of altering and pathogenic microorganisms	Rapid, accurate detection of this type of microorganism to minimise health risks due to contamination at the various stages of the process	Food producers of all types	✓	✓			✓
	FECYT	Biological Control	Biopreservatives for fresh-cut products; fruits and vegetables	Fruits and Vegetables processing and preservation	✓	✓		✓	
	Fundacion MEDINA	In vitro tests for toxicity, safety, ADME and plasma efficacy	Cytotoxicity, Neurotoxicity, Mitochondrial Toxicity, Cardiotoxicity, ADME tox	Applicable to all industries	✓	✓			
	INGENASA	INGEZIM GLUTEN	ELISA assay for quantification of gluten in food samples	Food producers of all types	✓	✓			✓
	INGENASA	INGEZIM GLUTEN SEMIQ	ELISA assay for semi-quantifying gluten in food samples	Food producers of all types	✓	✓			✓
	INGENASA	INGEZIM GLUTEN HIDROLIZADO	ELISA assay for quantification of hydrolysed gluten in food samples	Beer, syrup and baby food manufacturers	✓	✓			✓
	INGENASA	INGEZIM B-LACTOGLOBULINA	ELISA assay for determination of lactoglobulin in food and environmental samples	Food producers of all types	✓	✓			✓
	INGENASA	INGEZIM CASEÍNA	ELISA assay for determination of casein in food samples	Food producers of all types	✓	✓			✓
	LEITAT	In vitro tests for toxicity, safety, ADME and plasma efficacy	Genotoxicity, phototoxicity, hepatotoxicity, ADME	Food producers of all types					✓
	OWL	Metabolics and Lipidomics analysis	Lipids and metabolites identification	Food producers of all types	✓	✓			✓
	Parque Científico Tecnológico Aula Dei	Molecular Biology lab: PCR and real-time PCR (qRT-PCR), SNP analysis, hybrid purity, DNA methylation and sequencing, DNA/RNA extraction; fragment analysis	Genetic fingerprinting of individuals, varieties and populations. Identification of varieties and phylogenetic relationships. Analysis of genetic diversity in natural populations and breeding	Applicable to all industries. Crop improvement	✓	✓			✓
	SISTEMAS GENÓMICOS	AutentiGEN®-Equino	Horse DNA detection by Real-Time PCR®	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	AGROFOOD	Services to detect food allergens. These services are based on the latest DNA technologies and immunoanalysis, which verify the presence or absence of allergen ingredients in any food type	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	Verify of the IBERIAN BREED	Service to verify the genetic origin of animals and products of the IBERIAN BREED	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	AutentiGEN®-Quant Equino	Quantification method of Equine DNA in food	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	AutentiGEN®-Quant Porcino	Quantification method of porcine DNA in meat matrices	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	Genomic identification Service of Microorganisms	Microbiological Analysis	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	ImmuTest	Food Intolerance Study	Applicable to all industries	✓	✓			✓
	SISTEMAS GENÓMICOS	Self Analysis Products		Applicable to all industries	✓	✓			✓

VETERINARY - ANIMAL HEALTH

	Company	Product	Indication	Therapeutic area	Non Regulatory Preclinical	Regulatory Preclinical	Phase I	Phase II	Phase III	Ready to Market	Studies Location
	Bioibérica	Condro vet Taste	Chondroprotective specially recommended for dogs and cats with joint injuries and degenerative processes of the articular cartilage	Musculoskeletal Disorders	■	■	■	■	■	■	■
	Bioibérica	Cosequin Powder / Cats / HA	Chondroprotective drug being their main ingredients: Chondroitin sulphate and Glucosamine	Musculoskeletal Disorders	■	■	■	■	■	■	■
	Bioibérica	Dysgen	DNA chip and a blood sample to evaluate the genetic predisposition of dogs of the Labrador Retriever breed to develop hip dysplasia	Musculoskeletal Disorders	■	■	■	■	■	■	Spain
	Bioibérica	Denosyl	Dietary supplement with the specific nutritional purpose of enhancing liver function in case of liver failure in dogs or cats	Digestive System	■	■	■	■	■	■	■
	Bioibérica	DenaMarin	Nutritional supplement designed to provide specific nourishment to help liver function in cases of acute liver insufficiency in dogs and cats	Digestive System	■	■	■	■	■	■	■
	Bioibérica	Pro-Enteric	Symptomatic treatment of diarrhoea	Digestive System	■	■	■	■	■	■	■
	Bioibérica	Entero-Chronic	Complementary feed which helps maintaining intestinal functions	Digestive System	■	■	■	■	■	■	■
	Bioibérica	Impromune	Complementary feed recommended for dogs and cats to optimise the immune response for increased efficiency of the innate and the adaptive immune systems	Autoimmune & Inflammation	■	■	■	■	■	■	■
	Histocell-Artimvet	Vexoderm	Novel wound healing dressing	Dermatology	■	■	■	■	■	■	Worldwide
	Ingenasa	CPV-VLP	Canine Parvovirus	Infectious Diseases	■	■	■	■	■	■	Asia
	Ingenasa	PPV-VLP	Porcine Parvovirus	Infectious Diseases	■	■	■	■	■	■	Europe
	Ingenasa	IBDV-VLP	Gumboro Disease	Infectious Diseases	■	■	■	■	■	■	Europe
	Laboratorios LETI	Protein Q	Canine leishmaniasis	Parasitic Diseases	■	■	■	■	■	■	Europe
	Bionaturis	BNT004	Nematode in livestock	Parasitic Diseases	■	■	■	■	■	■	Latam
	Ingenasa	INGEZIM EIA	EIA diagnostic in horses	Infectious Diseases	■	■	■	■	■	■	Europe
	Ingenasa	INGEZIM MIXOMATOSIS	Mixomatosis diagnostic in rabbits	Infectious Diseases	■	■	■	■	■	■	Europe
	MSD	INP (Activyl Plus)	Control of transmission of leishmaniasis by sand fly bites	Parasitic Diseases	■	■	■	■	■	■	■
	MSD	ISO (CBPI oral)	Treatment of flea and tick infestation in dogs	Parasitic Diseases	■	■	■	■	■	■	Spain
	MSD	HIP (CBPI topical)	Treatment of flea and tick infestation in dogs and cats	Parasitic Diseases	■	■	■	■	■	■	■
	MSD	FPO (Flunixin Transdermal)	Adjunctive therapy in the treatment of bovine respiratory disease and mastitis in dairy cattle	Autoimmune & Inflammation / Respiratory and Pulmonary system	■	■	■	■	■	■	■
	MSD	MCR (Zuprevo)	Prevention of respiratory diseases in pigs	Respiratory and Pulmonary system	■	■	■	■	■	■	■
	Ingenasa	PRRS-epit	Porcine Reproductive & Respiratory Syndrome (PRRS)	Infectious Diseases	■	■	■	■	■	■	Europe
	Ingenasa	INGEZIM RVFV	Diagnostic of Rift Valley fever virus (RVFV) in ruminants	Infectious Diseases	■	■	■	■	■	■	Europe
	Bionaturis	BNT005	Canine leishmaniasis	Parasitic Diseases	■	■	■	■	■	■	Europe
	Biopolis	Probiotics and functional ingredients	Porcine, bovine, poultry, pet-food	Infectious disease / Digestive system	■	■	■	■	■	■	Worldwide
	FECYT	FMD	Foot-and-mouth disease	Infectious Diseases	■	■	■	■	■	■	Europe/ Latam

FEED

	Company	Name or description	Indication / Property	R&D	Validation	Register	Patent	Available in the market
	ALGAEENERGY	AlgaePiscis®	Fish & livestock. High level of polyunsaturated fatty acid, w3 type (EPA, DHA and ARA), proteins, vitamins, and carotenoids	✓	✓	✓	✓	✓
	Bioibérica	Palbio SORD / 62SP / 360L	Aids in increasing feed intake and contributes to the development of the intestinal mucosa thanks to its exceptional characteristics and high digestibility	✓	✓	✓	✓	✓
	Bioibérica	Nucleoforce Piglets / Horses / Fish / Cows / Poultry / Dogs / Salmonids / Shrimps	Nucleotides content for insufficient novo or endogenous synthesis (necessary for development of tissues with a high cell replication rate like reproductive, immune and intestinal tissues)	✓	✓	✓	✓	✓
	Bioibérica	Snacks-Gooddogs Caprice & Treat	Snacks for dogs with porcine fresh meat	✓	✓	✓	✓	✓
	BIOPOLIS	Probiotics	Addition to a product's formulation of living microorganisms that are validated as beneficial for health; confirmation of benefit in final product	✓	✓			✓
	BIOPOLIS	Hemicellulolytic enzymes (xylanase)	Faster livestock growth with lower feed costs through improved feed digestibility and the consequent increase in yields	✓	✓	✓	✓	✓
	BIOSEARCH	EXXENTIA®	Plant extracts with different functionalities for healthcare (cardiovascular, digestive, immune system, stress, antioxidants, etc.)	✓		✓		✓
	BIOSEARCH	HYDROLIV PLUS™	Hydroxytyrosol (≥ 15%) from olive fruit with strong antioxidant character	✓				✓
	BIOSEARCH	EXXENTIA®	Artichoke extract for liver protection					✓
	BIOSEARCH	HEREDITUM®	Probiotics strains for improvement of weight gain in piglets	✓	✓		✓	
	Camelina Company España	Camelina meal	Animal feed - high protein content. Omega 3 content	✓	✓	✓		✓
	Camelina Company España	Camelina husks	Animal feed - high vegetable fiber content	✓	✓	✓		✓
	LEITAT	Functional protein hydrolysates enriched in active peptides	For feed additives and other applications with antioxidant, antimicrobial, antiinflammatory	✓				
	NATAC	MAC-60	Aquaculture, concentrated olive oil, economical benefits due to intestinal protection	✓	✓	✓	✓	✓
	NATAC	Natacalm	Swine and ruminants	✓	✓	✓		✓
	NATAC	Cividox	Antioxidant, vitamin E enhancer. Meat quality	✓	✓	✓		✓
	NATAC	HP-40	Hepatic protection	✓	✓			✓
	Seprox Biotech	Hydroxytyrosol, hydroxytyrosol acetate and DOPAC	Reduction of contamination by pathogens in animal food products	✓				

*Based on data provided by ASEBIO associated companies. APRIL 2014.
