

CALL FOR APPLICATIONS

YOUNG SCIENTIST DEVELOPMENT COURSE

B4 Boston
Bangalore
Biosciences
Beginnings

A collaboration between IBAB, Bangalore, India & the Harvard South Asia Institute, Cambridge, MA. Supported by DBT, Govt. of India and Dept. of IT, BT and S&T, Govt. of Karnataka

Genomic Applications in Healthcare & Translational Research

A hands-on workshop facilitated by faculty from leading U.S. and Indian Institutes

10 - 23 December 2017

IBAB, Bangalore

About

The aim of this intensive workshop is to introduce highly talented Indian students to the emerging area of genomics and enable them to explore the power and excitement of Next Generation Sequencing technologies to address clinically relevant research questions. The workshop will train the participants on the experimental aspects of genomic sequencing & computational analysis of sequencing data through didactic research lectures and hands-on sessions.

Eligibility

- Open to pre-doctoral, doctoral & post doctoral researchers in Life Sciences / Biotechnology / Bioinformatics / Computer Science currently engaged in relevant areas of research
- Students currently enrolled in MBBS / M.Pharm programmes
- Exceptionally talented undergraduate students

Selection

The applications will be scrutinised by an international panel to select 25 applicants. Please submit:

- One page CV
- One page Statement of Interest justifying your application
- Academic transcript(s)
- Two letters of recommendation
