Promotion and popularization of cultivation of tissue culture raised elite varieties of banana in Bihar

 Bihar Agricultural University, Sabour

Biotech-KISAN Hub at Bihar Agricultural University, Sabour has organized a series of Farmers' Interaction-cum-Field Days at Araria, Aurangabad, Katihar, Khagaria and Purnia districts in Bihar state on demonstration of tissue culture banana cultivation. The training was imparted to the farmers on using elite tissue-culture raised planting material along with improved agronomical packages, mainly for controlling panama disease. Over 150 farmers benefitted from these events.
