Creation of awareness about water conservation along with popularization of high-yielding improved varieties of ground nut among farmers

 **Acharya NG Ranga Agriculture University, Guntur, Andhra Pradesh**

Biotech-KISAN Hub at Acharya NG Ranga Agriculture University, Guntur, Andhra Pradesh has organized the event on "World Water Day" for creating awareness to the farmers on importance of water and conservation agriculture. A Field-Day on popularization of high-yielding improved variety of groundnut (K-1812) along with Farmers' Interaction Programme on formation of FPOs were also organized at Errabadu village of Gonegandla mandal in Kurnool district and KVK, Utukur, Kadapa district, respectively. A total of 130 farmers in the area participated in these events.
